

"My Bayside"

The club's member portal

My Bayside is your personal area on the club's website – the part you reach after signing in, reserved for members, as opposed to the public site. Here is everything it lets you do.

Receive the club's important news

My Bayside is the official channel through which the club keeps you informed: a pool closed for maintenance, the passing of a member, community campaigns, sports and social events, Board of Directors meeting minutes... Urgent announcements appear as a banner on every page.

Follow club life

A personalized dashboard ("Hello {first name}") with today's facility status, the registrations that are open, official announcements and news, the photo gallery and albums.

Find out and sign up

Sports schedules (adults, kids, aquatics), competitions with online registration, the social events calendar, the dining menu and today's specials, community campaigns.

Manage your account

Profile and photo, family, your classes for the week, notification preferences, dues with online payment and receipts.

Get in touch

An opt-in member directory with connection requests – everyone tunes their visibility field by field – and the ability to submit contributions (photos, event ideas) subject to moderation.

Take part in club governance

Annual Meeting notice, proxies, and online voting with your personal token.

Ask the assistant, at any time

The club's **AI assistant** (the "Questions?" button) is available on every page and also on WhatsApp. It answers from the site's live data, with your signed-in member permissions.

And for those with a role in the club? My Bayside is also the gateway to the internal tools – the Front Office console and the management modules (payments, employees, purchasing, Annual Meeting) – each person seeing only what concerns them.
